## 2014-15 Open Enrollment: The Year of Lower Prices

The Open Enrollment period beginning Oct. 15, 2014 and ending Feb. 28, 2015 is a historic one, marked by the lowest prices on Florida Prepaid College Plans since 2007 and a new 1-Year Florida University Plan costing as little as \$43 a month for a newborn. The Florida Prepaid College Board was able to reduce prices on some of the most popular plans following a new state law that limits the future cost of tuition.

Below are breakdowns of the costs for Florida Prepaid's various plans, based on the child being a newborn at the time of enrollment. Costs for all ages/grades will be posted on <http://www.myfloridaprepaid.com/what-we-offer/> before Open Enrollment starts Oct. 15.
