Is there an existing seawall on adjacent property? _____

Justification/Reason for the alteration (attach separate pages if needed): _____

Shoreline Alteration/Dredge and Fill projects require approval by the Board of County Commissioners (BCC) at a public hearing. In order to prevent undesirable situations which might result from your proposed activity, please provide responses (on a separate page) to the questions/concerns below:

1. The effect of the proposed activity on the use of waters for transportation and recreational or other public purposes
2. The effect of the proposed activity on the free use of the waters and waterways
3. The effect of the proposed activity upon erosion control
4. The effect of the proposed activity upon the flow of waters
5. The effect of the proposed project upon formation of stagnant pockets likely to collect debris
6. The effect of the proposed project upon the natural beauty and recreational advantage
7. The effect of the proposed project upon the conservation of wildlife, aquatic vegetation, and other natural resources
8. The effect of the proposed project on the uplands surrounding the project area or affected by the plan
9. A description of vegetation types proposed for alteration.

REQUIRED ATTACHMENTS:

- A copy of a site plan that includes the following:
(A professional engineer must prepare and sign the plans)
 - The current water level and the NHWE.
 - Lake name.
 - A north arrow.
 - Bottom elevations or water depths.
 - The dimensions of the property (including total linear feet of shoreline at the NHWE).
 - Existing structures and proposed alteration areas with dimensions in feet or square feet.
 - The location of the requested work with respect to the upland owner's property and adjacent properties.
 - A description of sedimentation and erosion control measures used during construction.
 - Per direction from the BCC, riprap and native aquatic plantings shall be required for new and replacement seawalls with the exception of properties located on a canal where riprap may cause navigational concerns.
- A property survey or have the alteration areas drawn to scale on a survey.
- If project is for new seawall where no wall has existed and there is no wall on either adjacent property, the applicant must demonstrate that there is significant erosion and that a vertical seawall is the only practicable method available to stabilize the shoreline. To demonstrate this, a letter from a registered professional engineer shall be required.

By signing and submitting this application form, I am applying for the permit identified above, according to the supporting data and other incidental information filed with this application. I am familiar with the information contained in this application, and represent that such information is true, complete, and accurate. I understand this is an application and not a permit, and that work conducted prior to approval is a violation. I understand that this application and any permit issued pursuant thereto, does not relieve me of any obligation for obtaining any other required federal, state, water management district or local permit prior to commencement of construction. I agree, or I agree on behalf of my corporation, to operate and maintain the permitted system unless the permitting agency authorizes transfer of the permit to a responsible operation entity; I understand that knowingly making any false statements or representation in this application is a violation of Section 15-225, Orange County Code.
