## REESE

Meet Reeses! Reeses spent some time in foster care and is now back for adoption. She is very laid back and likes to chill more than play so would be a wonderful companion for someone who is looking for a kitty who isn't demanding and prefers to snuggle on the sofa and be petted. She even likes belly rubs. With her calm personality and beautiful markings just watching her will make the stress of your day disappear! While she has tested positive for FIV, this does not require any special care and she is safe to be with other cats as it is generally only transmitted by deep, severe bite wounds and not by sharing food, water, or litter boxes, and it cannot be transmitted to dogs or people. If you have any other questions or would like to meet her, please feel free to reach out to us or come in person!
