Accomplishments

New Facilities

Station 44 broke ground in July 2022

Station 80 broke ground in August 2022

Training Center

Training Facility broke ground in July 2023

Exciting news!

The new Fire Training Center, which will be located in east Orange County off Curry Ford Road, has broken ground! This \$52 million dollar project is set to open in late 2024 or early 2025. The new training facility, which rests on 38 acres, will include a 30,000 square foot Class A building with (7) seven classrooms, administrative offices, a gym, and a fire apparatus bay. The prop spine of the property has a 3-story burn building, (2) two drill towers, and several other training props. There will be a specific location for vehicle machinery rescue (VMR) and a special operations flank with a structural collapse training center, confined space, trench, and hazmat training areas.

Accreditation

Through its commitment to continued excellence, OCFRD pursues evaluation and accreditation through external agencies. In the past fiscal year OCFRD renewed its Class 1 Public Protection Classification (PPC) rating through ISO, achieved accreditation through the Emergency Management Accreditation Program (EMAP), and achieved accreditation through the Commission on Fire Accreditation International (CFAI). Additionally, our communication center received accreditation for emergency medical dispatch through the International Academies of Emergency Dispatch (IAED).

New Apparatus

2 E-One 75' Quints

6 E-One Pumpers

Pet Therapy Program

Orange County Fire Rescue expanded its Pet Therapy program by adding two full time canines, Jake and Billy. These furry friends bring more than a smile to those they meet. They are certified in Pet Therapy and are a critical part of our Behavioral Health program. Research has shown the positive effects on mental health through animal-assisted therapy. Serving as support to our personnel during debriefings as well as station visits, please welcome

Jake and Billy!

we are
O CFRD

I'm Billy

I'm Jake
