

Special Protection Area Comments		
Name	Comment	Date
Michael Patterson	I would like to be involved in listening/discussion on subject.	2/17/2025
Curt Williams		2/17/25
Raulie Raulerson		2/17/25
William and Lisa Sorice	We think Orlando, Orange County has grown to much to fast. There should be a county wide moratorium on more building.	4/5/2025
Erin Martin	To whom it may concern, I am writing in favor of addition protections for Shingle Creek and St. John's River Basins. These wetland areas are absolutely critical for the surrounding environment.	4/7/2025
Orange Audubon Society/ Deborah Green	Audubon letter to Mayor and Commissioners received.	4/8/2025
Michael Pay	I plan to attend this meeting.	4/24/2025
Jairo A. Rodriguez	no comment	5/8/2025
Val Mobley	no comment	5/14/2025
Bill Stokes	I am writing to express my strong opposition to the proposed development within the Tuscana Planned Development, which threatens the heart of our wetlands and the headwaters of the Everglades.	5/17/2025
Stephen P Johnson	Just do the right thing for our environment for future generations over quick buck schemes for the benefit of the few.	5/17/2025
Barbara Anne DrabekDoyle	We need to protect our wildlife. The state is going to fast too quickly. We need new sewer systems in the Orlando/ Kissimmee area first. We have too many tourists who need to paid resources.	5/16/2025
Maria Blackmore	There is no sound reason to disturb the Shingle Creek wetlands. Give us one good reason for doing this. We must fight by putting it back on them "What is the value of wetlands destruction?"	5/16/2025
Michelle Danker	: Enough is enough. Have you driven down Narcoossee lately? Probably not because it is a parking lot. In 2001, you could smell	5/16/2025

	orange blossoms, see wildlife, not roadkill. STOP the madness & greed!	
Tim Hay	The Big Sand Lake basin is one of the largest water retention areas that empties into Shingle Creek. Outflow is limited by the outfall constructed under I-4. The BSL basin has been plagued by high w ...	5/19/2025
William and Lisa Sorice	EVERYWHERE you look in Orange County, FL there is MASSIVE GROWTH. As a County, I think we should slow way down. Economic Development is fine but not at the expense of the environment. Orange County ...	5/19/2025
Hilary Headrick	The Hunter's Creek section of the Shingle Creek Basin would be a great candidate for the Green PLACE program.	5/20/2025
Shannon	This area is a vital area for wildlife and a flood zone for all of us living on the outskirts of this beautiful area. There are protected species here that need us. Please protect this land.	5/20/2025
