The primary objectives are to improve overall system capacity, enhance reliability, and better support both current and future needs within the service area. The project includes three main components: the construction of a new Ravaudage Pump Station, the installation of a new sanitary force main, and modifications to the existing Wymore Pump Station. Project funding is estimated at \$5,157,507 in HUD CDBG-DR funds and \$3,000,000 in City of Winter Park funds. The proposed project is located within the City of Winter Park and the Town of Eatonville, Florida.
