

**Orange County
Youth and Family Services Division**

Family Preservation/ Stabilization Program

 The Family Preservation/Stabilization Program provides services to Orange County families and their children who have been referred by the Department of Children and Families or Community Based Care of Central Florida (CBCCF) following a report to the Abuse Hotline. The children are at risk of removal from their homes, and services are aimed at keeping them safely together with their families.

 Services are provided using a strengths based model of service provision, and services are family driven and youth guided. Families are the primary drivers in creating the Family Care Plan, which begins with creating a vision for the family and basing the plan on the strengths and needs of the members.

 Services are provided by a Family team consisting of staff, the family and other identified providers. Other community and natural supports are enlisted to assist the family and to provide a support network remaining after services are terminated.

 Services are provided either directly or by referral to other agencies and are tailored to the needs of each family and individual family members.
